DETAILED ACTION

Remarks

This Office action is responsive to applicant's amendment filed July 1, 2004.

Claims 1-9, 23 and 24 are pending.

Claim Rejections - 35 USC § 102 and 103

The rejection of claims 1-4, 6, 7 and 9 under 35 U.S.C. 102(b) based on Gardner et al. (U.S. Pat. 5,595,833) has been withdrawn.

The examiner acknowledges and acquiesces with applicant's assertions for patentability, specifically, that the open manifolds [14] in Gardner et al. are not readable on the claimed ports individually interfacing with a corresponding one of the manifolds. To this extent, independent claims 1 and 6 recite "individually interfaced" or "individual fluidic connections", respectively.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record and to the examiner's knowledge do not teach or render obvious at least to the skilled artisan the instant invention regarding a fuel cell packaging which comprises fuel cell ports each individually interfaced or connected with a corresponding one of a plurality of receptacle manifolds.

Claims 23 and 24 are allowed for reasons set forth in the prior Office action.
